Identifying Stretcher Bars and Brace Bars

- **Standard S**, **Premium P** and **Gallery G** bars: use the prefix and length, eg. **P610**. This gives a pair, 2pcs, of **Premium** 610mm/24" bars, with 4 wooden wedges.
- **Brace Bars**: use **BB**, **BP** or **B** prefix and the metric length, eg. **B914**. This gives you a single **B** Brace bar, 1 pc, of 914mm / 36" brace bar, with 2 wooden wedges.
- **XP Contract**: use the **XP** prefix and the metric length, eg. **XP508**. This gives you a box of 24pcs, 12 pairs, of **XP** 508mm / 20" bars, with 24 wooden wedges.

Stretcher Bar Profiles

LION Stretcher Bar Profiles are made to be mitre cut and joined on normal framing equipment. Stretcher frames made this way do not allow easy tensioning of the canvas
