

VERDI **twin** 2 in 1

Twin vertical panel cutter

PUB 040
V.5 04/2016

Picture shows Verdi Twin 244E

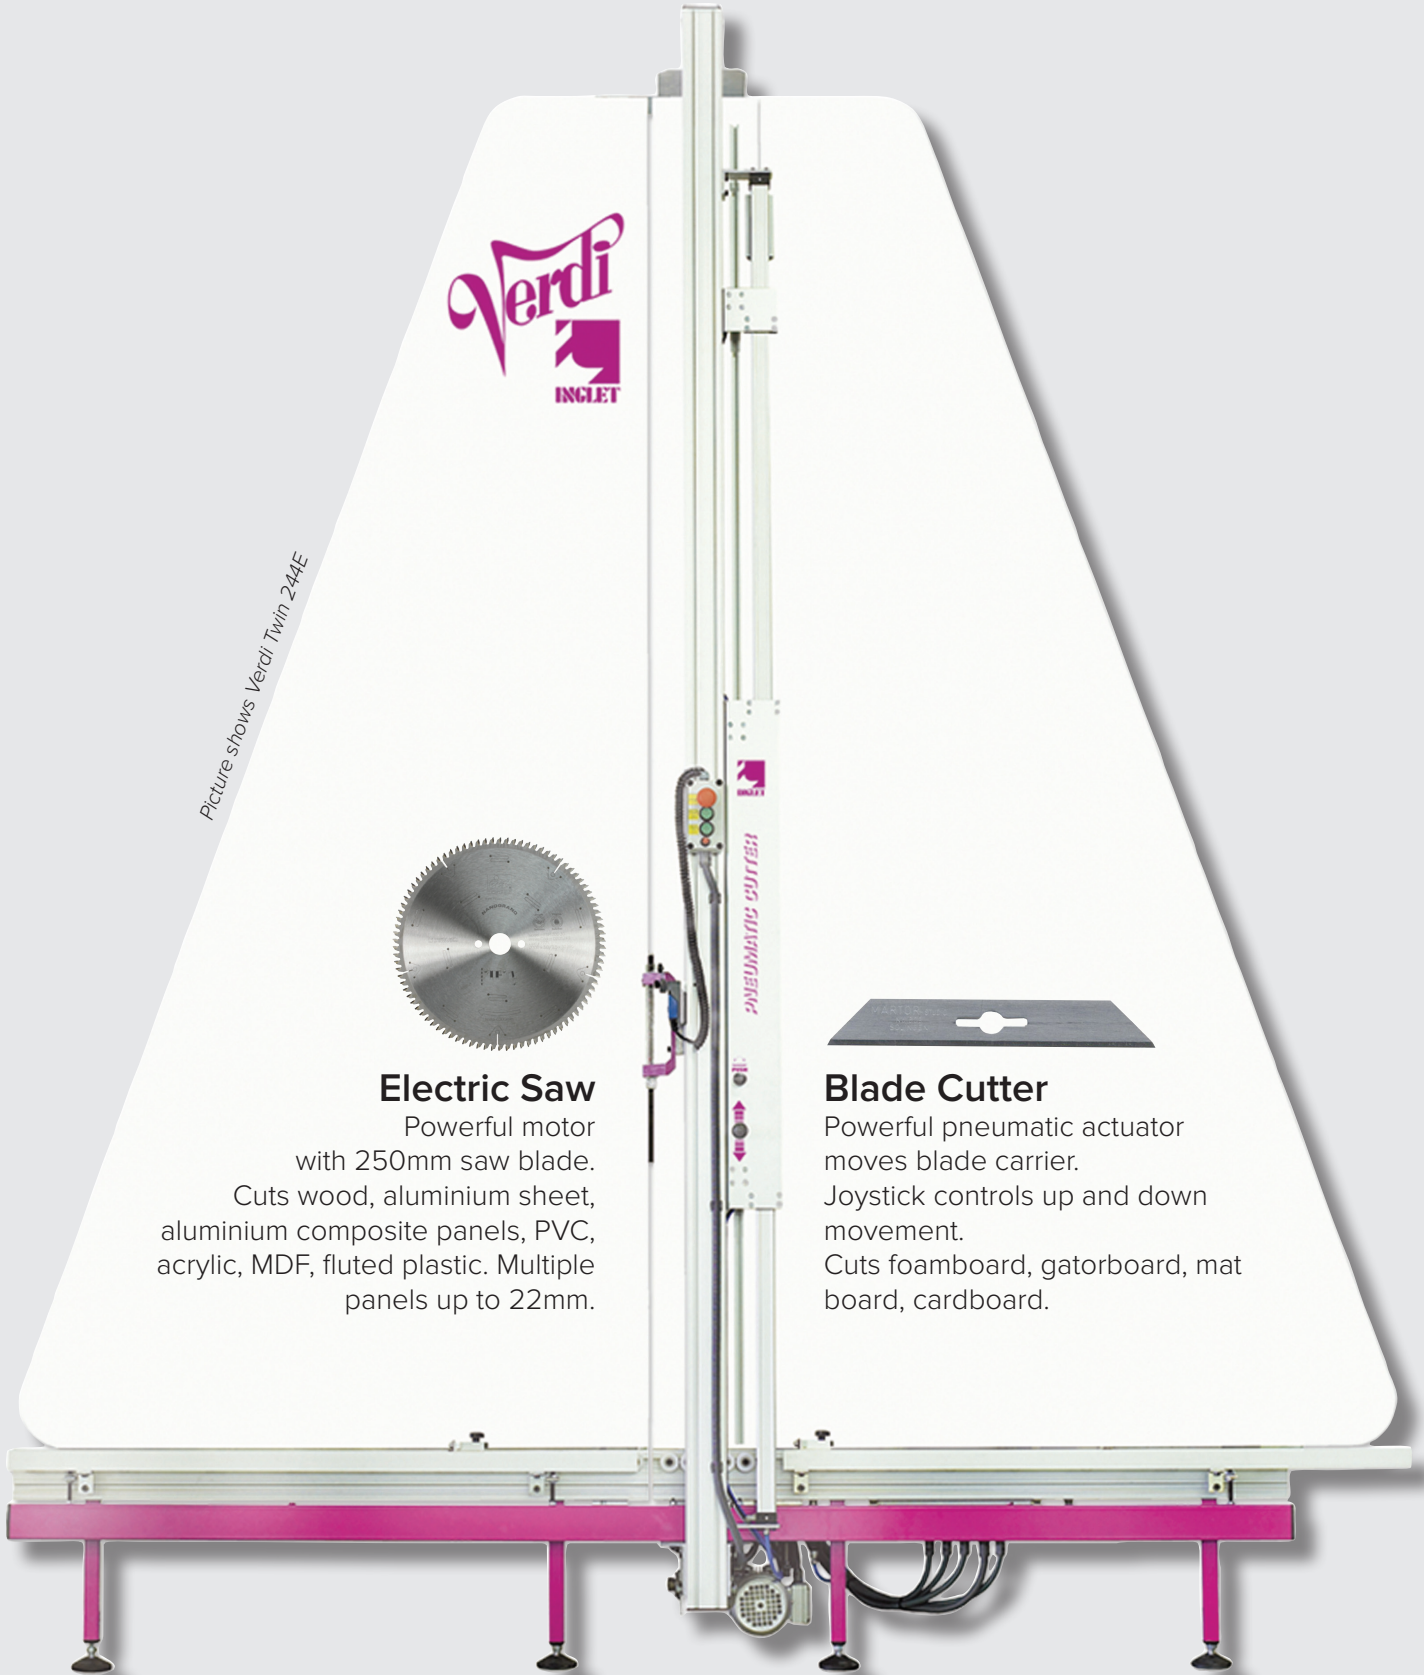

Electric Saw

Powerful motor with 250mm saw blade.
Cuts wood, aluminium sheet, aluminium composite panels, PVC, acrylic, MDF, fluted plastic. Multiple panels up to 22mm.

Blade Cutter

Powerful pneumatic actuator moves blade carrier.
Joystick controls up and down movement.
Cuts foamboard, gatorboard, mat board, cardboard.

VERDI twin 2 in 1

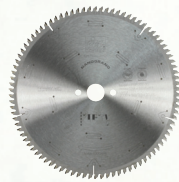

Twin vertical panel cutter

Two-in-one Performance

The only machine of its kind with two multi-substrate cutters in one. Verdi Twin combines a power saw and a pneumatic blade cutter. No adjustments, no replacements, no tools needed.

Laser beams:
For perfect cutting
accuracy. Optional.

Picture shows Verdi Twin 157

Lay rigid panels to the left to measure and cut with power saw:

- Wood
- Aluminium
- Aluminium Composite / PVC
- Acrylic
- MDF
- Corrugated Plastic

Lay semi-rigid panels to the right to measure and cut with blade:

- Foam board
- Gatorboard
- Mat board
- Honeycomb board

1000mm extension arm measuring arm fits either side. Optional.

Requires 230 V and compressed air supply.

Multi-roller supports simplify handling of panels.

VERDI TWIN has two cutting modes:

Power Saw

- Vertical power saw, with 250mm dia blade. Saw motor behind cutting surface. See-through safety blade guard reveals exactly where you are cutting.
- Cut wood, aluminium, aluminium composite panels, PVC, acrylic, MDF, fluted plastic. Multiple panels up to 22mm.
- With optional kit, Verdi Twin scores glass up to 3mm.
- Dust from saw collected through steel housing and ducted to 2hp dust collector.

Vertical Blade Cutter

- Powerful pneumatic actuator moves blade carrier. Joystick controls up and down movement. Uses a sharp blade to cut foamboard, Gatorboard, mat board, cardboard, etc.

Special Features of Verdi Twin

- Pneumatic-controlled clamping bar secures material during cutting. Allows user to position materials at an angle for trimming if image not perfectly square.
- Laser beam alignment for perfect cutting accuracy. Optional.
- Small, strong rollers along bottom provide greater support of all panels. Simplify handling and ensure accurate cuts. Small waste pieces drop through.

Included with your Verdi Twin:

- 10 Cutting Blades
- Wall mounting kit
- Full support for selection, commissioning and warranty.
- Saw Blade, 250mm x 30mm
- 2 hp dust collector

Discuss your cutting requirements with our technical specialists, as Verdi Twin is available in a variety of formats.

Verdi Twin with manual saw operation:

7928	Verdi Twin 157	1570mm cut	#728551	£ 5,640.00
------	----------------	------------	---------	------------

Verdi Twin with electronic saw operation:

7949	Verdi Twin 244E	2440mm cut	#728552	£ 8,320.00
7950	Verdi Twin 305E	3050mm cut	#728553	£ 8,995.00

Verdi Twin Parts & Accessories:

7951	Spare Blades	pk 100	#130115	£ 145.23
7930	Extension Arm 1000mm		#142002	£ 248.56
7929	Laser Beam System		#142006	£ 649.47
7952	Adjustable Measuring Stop		#451111	£ 74.16
7953	Spare Bags for Dust Collector		#140525	£ 16.12
7954	Cutting Head for Glass		#451780	£ 119.32
7955	Spare Glass Cutting Wheel		#140743	£ 16.89

Ask us about 250mm saw blades. Also ask about the glass cutting kit option for the VT157.

Blade cutting head powered by pneumatic linear actuator. Shown here with optional laser sighting system

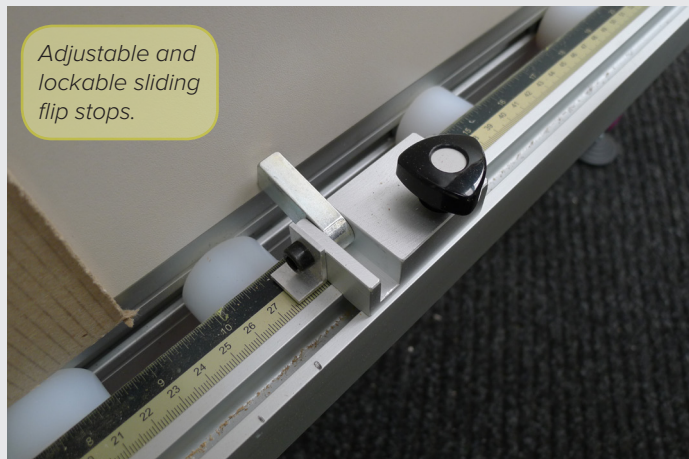

Blade carrier held in place by magnet. Easily removed to change blade. Can be locked with extra screw for tougher materials. Uses special blade, as shown

Saw handle, fitted with optional laser sighting system

Push/pull button operates powerful pneumatic clamp

Adjustable and lockable sliding flip stops.

VERDI **twin** 2 in 1

Twin vertical panel cutter

It's all in the detail

Seamless splices. Crisp cuts. Perfectly matched panels. Square edges. You're often dealing with oversized, time sensitive and detail oriented projects. What's more, you need to ensure volume production quantities at precision standards for your customers.

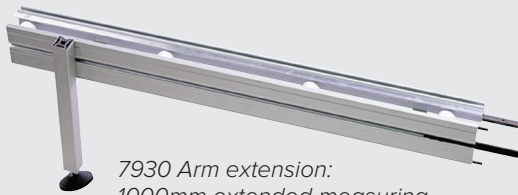

The Verdi Twin Cutter can help right down to the last detail.

Delivering perfect cuts every time, this machine will pay for itself very quickly.

Save time. Save money. Increase productivity

The Verdi Twin has state-of-the-art features designed for timesaving efficiency, allowing operators to do more, and do it with perfection every time.

Versatile design means no cutting limitations on sheets of up to 1500 x 3050mm. Your Verdi Twin can cut to either side.

7930 Arm extension:
1000mm extended measuring
arm fits either side

Precision production capabilities at your service

Looking to achieve production perfection?

The Verdi Twin cutting-edge design is the solution, helping you to achieve the perfect cut first time, every time.

Perfectly executed projects produce not only happy customers, but also:

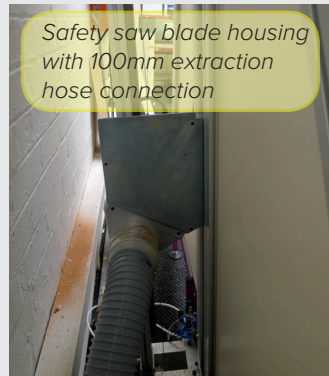

- Repeat customers
- Greater profitability
- Higher product quality
- Higher profit margins

- * Laser-engraved scales also on the squaring arm, provide accurate and long-lasting measurements.
- * Powerful 1,5 hp motor creates minimal noise, even when cutting through 22 mm materials.
- * See it on demo at our Birmingham warehouse.

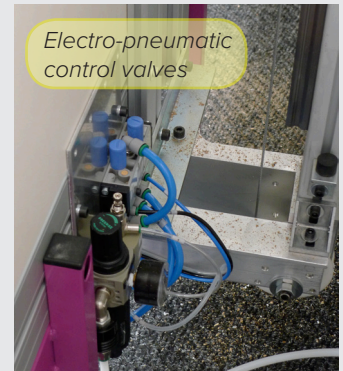

Large volume dust
collector, with 2hp motor

Safety saw blade housing
with 100mm extraction
hose connection

1.5hp ultra-low vibration
induction motor for saw

Electro-pneumatic
control valves

Adjustable limit
switch on E models

Massive counterweight
for saw mechanism

13a 220v power connection.
Also requires compressed air
