

Foam Edge Protector Corners & Strips

PUB095

v.4 11/2020

Our range of protective foam pre-formed Corners and edge Strips is made from blue polyethylene foam of just the right strength to absorb bumps and shocks while framed art is in transit. Cut to length or notch with a breadknife or similar. It clips onto the frame moulding and can be secured with HandyWrap, 2884.

- Four profiles, to suit frame mouldings from 15mm to 65mm tall
- Pre-formed Corners match the profiles of the Strips. Strips are 2m
- Pack quantities according to profile size

The range of foam Corners and Strips comes in four profile sizes:

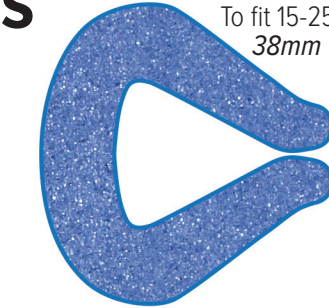

- A** For mouldings 15 - 25mm tall
- B** For mouldings 25 - 35mm tall
- C** For mouldings 30 - 45mm tall
- D** For mouldings 45 - 65mm tall

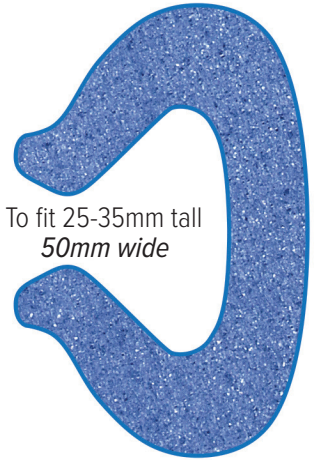

Ask for sample pack, 9944, with one of each Corner and a piece of each Strip.
See Lion website for more info.
