

## Safe, secure, hanging for special pictures

A unique range of superbly designed and engineered Wall Hooks, Adjustable Link Hook and D-Ring hangers. All are made in Japan, from stainless steel. Designed to hang valuable and special fine art and heavy mirrors safely and securely.

The manufacturers advise that when two are used, which is normal, each should have a load capacity higher than the weight of the frame.

Screws are not supplied with Takiya fittings as they need to be carefully selected to best match the wall material and moulding profile. Holes in most Takiya fittings are countersunk. For long term security, screws should be plated and stainless steel if possible.

### TAKIYA Security Collars

Each security collar matches a wall hook. When fitted they minimise the risk of the frame coming off the hook - by accident or deliberately. Lock with 1.5mm Hex Key.

**7181 FH0-120-30S**  
40mm long for 7177  
pack 2 £36.28

pack 2 £12.85

### Hex Driver for Security Collars

Special 145mm long, 1.5mm, hex-key driver to lock collars onto wall hooks from the side of the frame. **7182** £6.35

### TAKIYA Wall Hooks

The largest, 7177 & 7176 are 120mm long and if correctly fixed to the wall with suitable screws will take a load up to 150kgs. The smallest will take 50kg. D-Rings on a frame can be hung directly on the wall hooks. For extra flexibility and to adjust the level, use the Link Hook, adjustable.

<b>7425</b>	Wall Hook 55 x 20mm	50kg	pack 2	£ 36.48
<b>7426</b>	Wall Hook 70 x 30mm	100kg	pack 2	£ 43.76
<b>7427</b>	Wall Hook 100 x 35mm	150kg	pack 2	£ 51.78
<b>7176</b>	Wall Hook 120 x 35mm	150kg	pack 2	£ 99.08
<b>7177</b>	Wall Hook 120 x 35mm	100kg	pack 2	£ 103.90

## D-Rings for Frames

Substantially made D-Rings in stainless steel. The largest takes loads up to 150kg and even the smallest takes loads up to 10kg.

All work with the Adjustable Link Hook. Secure with appropriate size and length of screws.

## Link Hook, adjustable

Unique in design, the Link Hook fits onto a Takiya wall hook and hooks into any Takiya D-ring on the back of the frame.

It lets the top of the frame come forward and also allows frames where the canvas on stretchers is deeper than the frame moulding to hang correctly.

Used in pairs, the knurled adjusters allow the frame to be raised and lowered and levelled. The spring security clip resists unauthorised removal. The Link Hook is engineered from stainless steel with a fine finish. It fits all Takiya Wall Hooks and D-rings. Supplied in packs of 2.

7429	Link Hook, adjustable	pack 2	£ 35.95
