

## The perfect heavy-duty cutter for tougher materials

**Consistent, accurate and efficient cutter for tough rigid boards. Robust construction for the toughest working conditions.**

- Cuts heavy-duty materials easily
- Cuts materials up to 250cm or 98" (ST250 model)
- Consistent perfect cuts
- No dust, debris or static build up
- Heavy-duty construction to withstand tough use in a production environment
- Quick payback through reduced waste and cutting time
- Safety by design
- Quick fitting interchangeable tools
- Manufactured with premium quality materials
- Guaranteed for 5 years

Available in 3 sizes from 165cm to 250cm

### Perfect for cutting ...

#### Semi-rigid materials

- PVC foam board up to 13mm
- Corrugated/fluted plastic (Correx) up to 13mm
- Foam centred board up to 13 mm
- Most other semi-rigid plastic materials
- Magnetic sheet up to 4mm

#### Rigid materials

- Aluminium composite (Dibond) up to 4mm
- MDF up to 3mm
- Cast acrylic or Plexiglas scoring up to 3mm
- Glass scoring up to 3mm

If your material is not in the list above we offer a free test cut service - for details please email [sales@keencut.co.uk](mailto:sales@keencut.co.uk)

*"The best piece of equipment we have ever bought with a ROI of less than 6 months."*

### Cost-effective solution

#### Multi tool head

- Cutting blade, scoring blade and optional glass cutter. All permanently mounted for instant use.
- Uses off-the shelf blades - no costly specialist blades required.

### Cut heavy-duty materials

#### Twin wheel cutter for tougher materials including Dibond and MDF

- Cuts 4mm Dibond or 3mm MDF in a single pass producing a clean, safe edge.
- Noiseless and dust-free.

### Consistent perfect cuts

#### Unique pressure sensitive clamp

- Powerful clamping holds tough materials precisely for a perfect cut.
- Touch-sensitive control clamps delicate or printed materials gently without damage.

#### Perfect alignment - no fuss

- Keencut's sightline strip gives total accuracy with a single cut line.
- No set-up. No adjustment. No unpredictable, expensive lasers.

#### Achieve the same cut every time

- Quick set production stops for repeated use in a high volume production environment.

### Safety by design

- Automatic blade disengagement.
- Blades securely mounted with a safety lock.
- Counterbalanced cutter head.

## OPTIONAL EXTRAS AND ACCESSORIES

### Squaring arm extension

Allows easy large board handling on both sides of the cut.

### V-groove attachment

Fast and simple way to construct sign trays, self-standing displays, exhibition stands and boxes from printed or unprinted aluminium composite panel (ACP).

### Glass cutting kit

Includes glass cutting ramp, 2 x wheels and a cutting block. Maximum cut length is 165cm (65").

### Free standing kit

Ideal for when wall space is limited or flexibility of machine placement is required. Bolts directly to the back of the machine to produce a rigid and stable free-standing unit.

## DIMENSIONS

	ST165	ST210	ST250
